

6 décembre 2006  
Lugano, Palais des Congrès

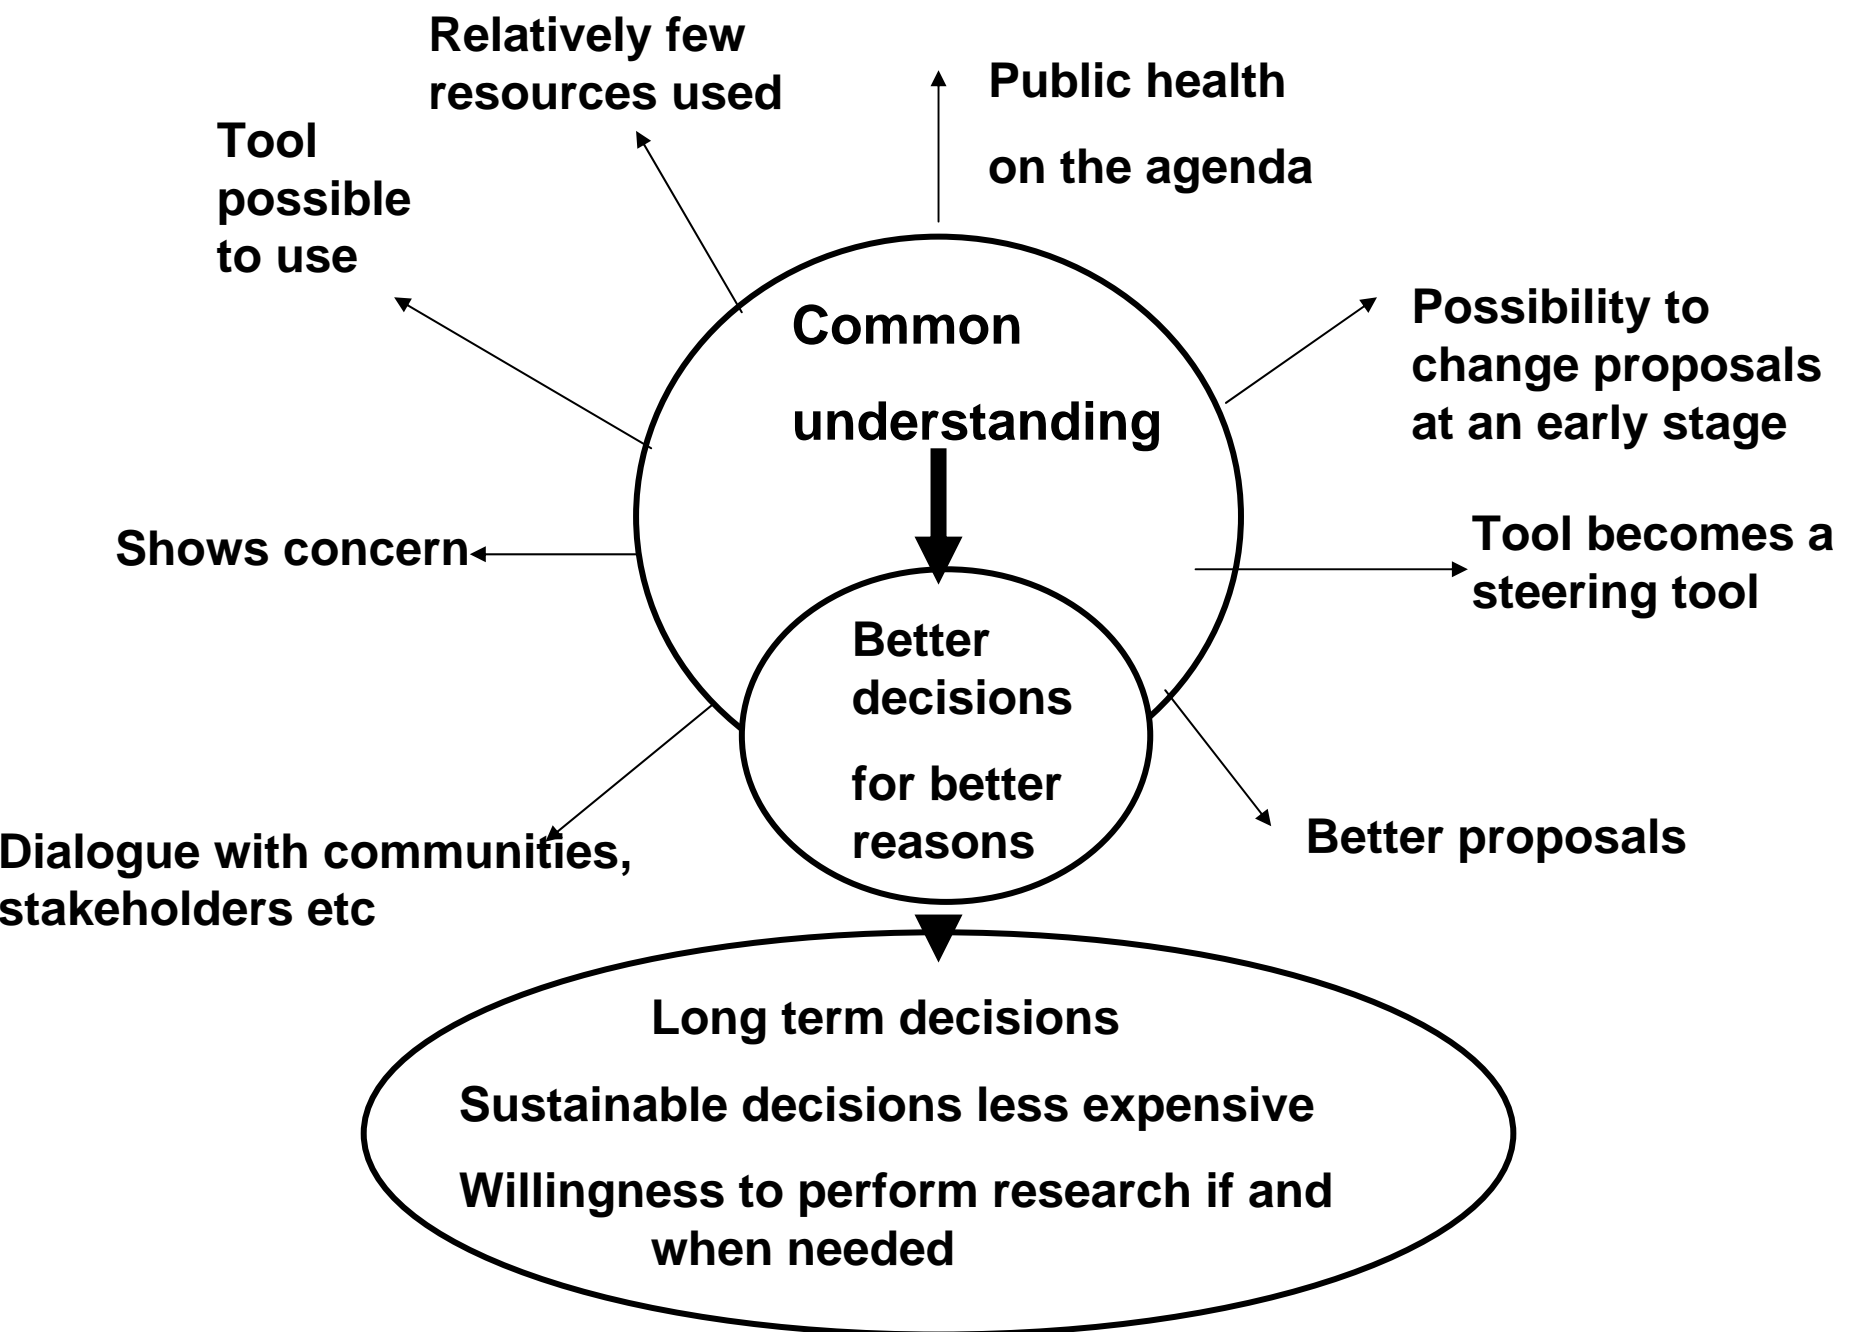

**Evaluation d'Impact sur la Santé (EIS):  
Une opportunité pour développer des politiques publiques saines**

**Workshop Lugano dec 6th 2006**

# **Institutionalising HIA in Helsingborg**

**Kerstin Mansson**

**City of Helsingborg (Sweden)**

Strengths	Possibilities
<ul style="list-style-type: none"> <li>•Intervenes in the decision making process in an obvious way</li> <li>• Supports an HIA approach</li> <li>•Supports rapid appraisal</li> <li>•Decision makers has taken part in the creation of the tool.</li> <li>•Tool adjusted to the priorities of the city in a systematic way</li> </ul>	<p>Could be improved all the time</p> <p>Could make the decisions more and more transparent</p> <p>Could really increase participation</p>
Weaknesses	Threats
<ul style="list-style-type: none"> <li>• Could be hard to stay objective working in the same municipality where you perform the HIA</li> <li>•Tool could be too simplified</li> <li>•HIA could become a “hostage” when putting proposals forward</li> </ul>	<ul style="list-style-type: none"> <li>• Always exposed to political and other changes</li> </ul>
